for: examiner of patent application 09/308,150

Den Bosch, November 3 , 2002

Dear madam, sir,

On October 21, I was made aware of the patent application publication (Pub. No.: 2002/0137092 A1; Pub. date: Sep. 26, 2002) concerning application No.: 09/308,150. To my surprise I was not listed as an co-inventor on the patent application.

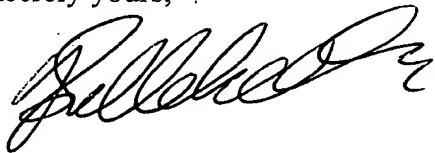

I am listed as co-inventor on all other family members of the European application and the international PCT application (PCT/NL97/00624; international publication number: WO 98/22503; international publication date: May 28, 1998).

I assume this omission has come about through error as I am a co-inventor of the findings described in the patent application and can proof this fact.

Could you please inform me how this omission could occur and if there is a possibility to correct this, how I, or the applicants / assignees, could correct this?

Thank you for your time and efforts,

Sincerely yours,

Gerard A. Schellekens, PhD
